Email: [awais.ameer181@gmail.com](mailto:awais.ameer181@gmail.com)

### Summary

Versatile Software Developer skilled in backend and frontend development, architecting scalable solutions across web, desktop, and APIs. Currently contributing to mission-critical systems at Pakistan Air Force using React.js, Java, Oracle DB, and MySQL. Specializes in .NET Core, Angular, and React ecosystems with strong database and API design skills. Committed to clean code, performance optimization, and innovation.

### Professional Experience

#### Software Developer

Dec 2025 - Present

##### ➤ Pakistan Air Force – Shaheen Foundation

Developing mission-critical web applications using React.js & Java with responsive, dynamic interfaces **Technologies:** React.js, Java, Oracle DB, MySQL, Git

#### Associate Software Engineer

Nov 2024 – Sep 2025

##### ➤ Amigo Software (Pvt.) Limited

Built SharePoint-integrated Email Campaign Automation (Power Apps + Automate + SendGrid) processing CSV contacts and sending personalized campaigns in <5 mins. Delivered 10+ REST APIs (.NET 6, EF Core, Swagger) powering Angular with 99.9% uptime on Azure App Service. Implemented. **Technologies:** .NET Framework, .NET Core, C#, Web API, GraphQL, MongoDB, Microsoft SQL Server, Azure SharePoint Online, Power Platform.

#### Trainee Full Stack Developer

Jul 2024 - Oct 2024

##### ➤ Excellence Delivered ExD Pvt Ltd, Pakistan

Built full-stack apps with .NET MVC, Angular, and SQL Server in a NAVTTC government bootcamp. **Technologies:** .NET Core, Entity Framework, Web API, C#, JavaScript, Angular, SQL Server.

### Projects

#### ❖ AwaisWears - E-Commerce Platform

NAVTTC

Developed a full-stack shopping website enabling seamless product management and user transactions. Designed UI with real-time inventory management. Built RESTful APIs for product catalog and order processing. **Technologies:** Angular, ASP.NET Core Web API, SQL Server

#### ❖ Hospital Management System - HMS

NAVTTC

Engineered a comprehensive HMS streamlining patient care and administrative operations. Implemented secure user authentication with OTP. Implemented doctor-patient portal with secure data access and integrated billing. **Technologies:** ASP.NET Core MVC, SQL Server

#### ❖ Power Apps Marketing Automation System – [View Project](#)

AMIGO SOFTWARE PVT. LTD

Built a **PowerApps + Power Automate + Dataverse + SendGrid** solution for contact management and campaign automation. Features: CSV upload, deduplication, Dataverse integration, dynamic SendGrid campaigns, and secure data handling.

#### ❖ Streamlit Web App (AI) - AIXMOOD

FYP-UET Taxila

Designed an AI-powered emotion detection system using computer vision and deep learning. Achieved 85% accuracy in real-time facial emotion recognition, a standout feature for AI-focused companies. Integrated WebRTC for live video processing and deployed an interactive Streamlit interface for emotion analytics. **Technologies:** Python, OpenCV, TensorFlow/Keras, Streamlit Work

### Education

#### Bachelor of Science in Computer Science

2019 – 2023

##### ➤ UNIVERSITY OF ENGINEERING AND TECHNOLOGY TAXILA, PAK CGPA: 3.19/4.00

### Skills

**Programming Languages :** C#, JavaScript, TypeScript, Python, Java

**Frameworks & Libraries :** React.js .NET Core, ASP.NET MVC, Entity Framework Core, Angular, Bootstrap, GraphQL

**Database :** Oracle DB, MySQL, SQL Server, MongoDB (NoSQL), PostgreSQL

**Development Methodologies :** Scrum, Agile

**Tools & Platforms :** Microsoft Azure, Azure DevOps, Git, Netlify, SharePoint Online, PowerApps, Power Automate, Dataverse

**Concepts:** OOP, SOLID Principles, Design Patterns, Dependency Injection, Unit Testing, DSA

### Achievements

HEC Scholarship Recipient during the undergraduate program.
